Scorer: _____

Attest: _____

Date: _____

- Repair all ball marks
- Refill all divots
- Rake sand traps when used
- Respect our course marshals

- LOCAL RULES:**
- RCGA rules govern all play except where local rules apply.
 - Out of Bounds is defined by white stakes and all boundary fences. Lateral hazards are defined by red lines.
 - Large waste bunkers on #5 and #7 fairways are not hazards. You may ground your club without penalty.

①

Favour the right side off the tee. Big hitters can cut the corner on the left. The downhill approach shot requires less club than the yardage calls for.

②

Accuracy is the key on this difficult hole with room for error on the right. Play to the 150 marker from the tee. Use an extra club on your approach to avoid the greenside bunkers.

③

A long straight tee shot is required on this slight dogleg to the right. Lay up short of the bunkers on your 2nd shot. Often reachable in two for longer hitters.

④

First of the Springs' famous par 3s. Take enough club to avoid the large bunker short of the green. Centre of the green is always a good play.

⑤

A long tee shot down the left centre sets up a mid-iron approach to this slightly elevated green. Be careful of the large waste bunkers on the left.

⑥

Take enough club to avoid the deep bunker guarding the front of the green. Keep the ball short and left of the pin if possible to avoid downhill putts on this difficult two tiered green.

⑦

Accuracy is required to avoid the large waste bunkers flanking both sides of the fairway. Club selection is important to this long three tiered green.

⑧

Ideal tee shot is placed short of the pond leaving 130 yards to this very large green. Play safe here, 4 is always a good score. Be careful with back left pin placements.

⑨

This difficult par 5 requires both length and accuracy. Keep your 2nd shot short and left of the fairway bunkers setting up a mid iron approach to an undulating green.

10

Yardage is measured around the pond allowing longer hitters a chance to reach the green in two. If laying up, favour the right hand side with your 2nd shot.

11

Accuracy off the tee is important to avoid water on the right. Lay up off the tee with a mid to long iron setting up a short iron approach to a large green.

12

A straight tee shot is required to avoid the bunkers right and out of bounds left. Club selection is important on your approach to this very long green.

13

Favour the left side all the way up on this tricky Par 5. Don't be long with your approach, the ball must be kept below the hole on this severely sloped green.

14

A long tee shot down the left centre sets up a mid-iron approach to this slightly elevated green. Be careful of the large waste bunkers on the left.

15

Longer hitters can cut the corner with a fairway wood aiming for the large gap in the trees. Be mindful of players ahead as they may not be visible. Shorter hitters play straight out to the corner.

16

Tee shot should be played to the 150 yard marker avoiding the canyon on the left. Tough second shot to a long narrow green. Accuracy is crucial on the approach.

17

The last of the Springs' famous par 3s requires precise distance control to this large but very shallow green. Don't let the yardage fool you, 3 is a great score.

18

Tough finishing hole requires a well placed tee shot just right of the large fairway bunker. Play to the center of the green to avoid the numerous green side bunkers.
